

ALL-IN-ONE CYBERSECURITY

DELIVERING PEACE OF MIND THROUGH...

CONSULTING

Changing HIPAA requirements and regulations make it nearly impossible for private practices to keep up.

Our industry-leading compliance consulting utilizes HIPAA as a tool to implement security controls, enabling practices to obtain and maintain full HIPAA HITECH Compliance.

DK Carr & Associates consultants are certified by ISC2 and HIMSS and specialize in privately owned healthcare practices.

CYBER MANAGEMENT

The healthcare industry is one of the largest cybersecurity attack targets, and studies show that smaller targets, like smaller practices, comprise most victims. Be prepared for a cyberattack with our Crisis Management Service, which includes:

- Crisis Management
- Compliance with HIPAA Breach Rule
- Step by Step Containment Navigation and Guidance
- Incident Investigation
- Full Cybersecurity Recovery
- Guidance with Breach Notification (IF NECESSARY)

CYBER PREVENTION

Our priority is preventing a cyberattack before it happens. In addition to fulfilling HIPAA requirements, our premier Risk Analysis service leads the industry in cybersecurity measures by delivering:

- Comprehensive Risk Analysis
- Administrative, Physical Technical
- Incidence Response Planning
- Internal and External Vulnerability Scanning
- Penetration Testing
- Security Awareness Training
- Review of Practice Documentation
- And More!

PROTECTING SMALL HEALTHCARE PRACTICES FOR MORE THAN 30 YEARS

With more than three decades of experience in technology and security, DK Carr & Associates is a leading consultancy focused on small practice cybersecurity with a niche in healthcare. Backed by a team of experts, we implement proven systems and training essentials for HIPAA HITECH Compliance while protecting you, your practice, and your patients from ALL cybersecurity threats.

COMPLIANCE DOES NOT MAKE YOU SECURE, BUT SECURITY WILL MAKE YOU COMPLIANT.
